### Education

FPT Polytechnic - Information Technology.

### Experience

Front-end Developer at UnikCore Company (Full-time). From April 2023 to now.

# Projects

## 1. Unikore Project

This is the first real-world project I have ever worked on. It is a product created to manage sales, marketing, and customer care systems for various industries.

**Technologies used:** NextJS, Redux (Redux-toolkit), Tanstack Query, Formik, Yup, Axios, React-Beautiful-DnD, Antd, Sass, React ChartJS.

### **Functions include:**

Due to some confidential information and the company's product has not been released to the market, I cannot disclose the source code. Therefore, I will describe some features I have implemented using images permitted by the company. You can checkout some features I did in this project through my portfolio
